HOW TO PLAY

1 Pick 5 Numbers

Select five (5) numbers from 1 to 70 in the upper play area of the playboard, or mark the QP box and the terminal will pick your five (5) numbers for you.

2 Pick Your Mega Ball

Select one (1) *Mega Ball* number from 1 to 25 in the lower yellow play area of the playboard, or mark the QP box and the terminal will pick your one (1) *Mega Ball* number.

3 When You Buy, Megaply®!

Play the *Megaplier*® feature for an extra \$1 per playboard and you could increase your non-Grand Prize winnings by 2, 3, 4 or 5 times! You could win up to \$5 million! Mark the YES box next to MEGAPLIER to select this feature for all playboards on the playslip. The *Megaplier* number will be chosen from a field of 15 numbers according to the following frequency: one 5, three 4's, six 3's and five 2's. Any non-Grand Prize you win on a *Mega Millions* Play will be multiplied by the *Megaplier* number drawn, if you purchased *Megaplier*.

NOTE: Jackpot and Grand Prize are used interchangeably.

4 Multi-Draw Option

For added convenience, you can play your numbers for up to 10 drawings. Mark the appropriate box under MULTI-DRAW. This will play your numbers indicated on playboards A through E for the number of drawings you select. Each playboard costs \$2 (\$3 with *Megaplier*) per drawing.

5 Grand Prize* Payment Options

You must select at the time of purchase how you want to be paid if you win the Grand Prize. If no payment selection is made on a playslip, the playslip will be rejected.

ANNUAL PAYMENTS: Mark the 30 ANNUAL PAYMENTS box for payment of a Grand Prize in 30 annual graduated installments. Annual payments for *Mega Millions* are not equal. Each payment will be greater than the previous year's payment.

CASH VALUE: Mark the CASH VALUE OPTION box for a single payment of the net present value of the Grand Prize. This amount will be less than the advertised jackpot which is based on 30 annual graduated payments. You may not change the payment option after purchase.

* The Grand Prize is pari-mutuel and will be divided equally by the number of Grand Prize winners. The *Mega Millions* Grand Prize amount that is advertised is not always a guaranteed amount, it is an estimated amount. A Grand Prize winner may receive less than the advertised amount based on actual *Mega Millions* game sales and interest rates for long-term investments.
